Objective

As a Salesforce Developer Intern at Cloud Intellect, I gained valuable experience in software development. I analyzed business processes, developed CRM flows, and customized applications to meet organizational objectives. My responsibilities included drafting detailed technical documentation, implementing innovative solutions, and performing thorough application testing. This hands-on experience has strengthened my technical abilities and given me a solid understanding of leveraging technology for business success.

Skill Highlights

- **Salesforce Development:** Apex Trigger, Apex Classes, Lightning Web Components
- **Salesforce Automation:** Process Builder, Flows
- **Salesforce Integration:** REST API
- **Salesforce Tools:** Apex Data Loader, Import Wizard
- **Salesforce UI/UX:** Lightning App Builder, Lightning Experience, Lightning Design System
- **Data Modeling:** Custom Objects, Fields, Relationships, Validation Rules
- **Security:** Profiles, Roles, Permission Sets, Sharing Rules
- **Testing and Debugging:** Unit Testing, Debug Logs, Developer Console

Experience

Cloud Intellect, Nagpur

Nov 2024 – Present

Salesforce Intern

- Designed the data model for the expense tracker app, including customized objects, fields, and relationships.
- Created the user interface using Lightning Web Components (LWC) and the Lightning Design System (SLDS) to ensure a consistent visual experience.
- Developed specialized Apex classes and triggers to support complex business logic for precise expense tracking and in-depth reporting.
- Seamlessly integrated the application with external services by leveraging Salesforce API.
- Conducted thorough testing and debugging to ensure the application's reliability and performance.
- Produced comprehensive documentation and informative training materials for end users and administrators.
- Collaborated closely with the product owner and various stakeholders to gather requirements and prioritize features for future development.

Cloud Intellect Academy, Nagpur

July 2024 – Nov 2024

Salesforce Trainee

- Gained Experience with Lightning Components, Lightning Events, Apex Classes, Apex Triggers, and Apex Test Classes.

- Learned to implement Batch Classes and Scheduled Classes based on business requirements.
- Acquired hands-on experience with Salesforce flows, Salesforce Lightning and App Builder, and practiced writing queries using SOQL and SOSL in Apex Classes and Triggers.
- Assisted in troubleshooting and resolving issues related to Salesforce configurations and customizations, ensuring smooth project delivery.
- Contributed to the optimization of Salesforce performance by refining code and improving Flows.
- Participated in regular code reviews and collaborated with senior developers to ensure best practices and high-quality deliverables.
