EXPERIENCE

Cognizant Technology Solutions(2022-Present)

- Proficient in developing and managing **Salesforce configuration and customization(apex, flows, LWC)..**
- Expertise in implementing custom permissions and managing complex workflows.
- Hands-on experience with **Copado** for release management and deployment.
- Worked with **JWT tokens** for Salesforce authentication and **Salesforce CLI (sfdx)** for project management.

PROJECTS

Salesforce Development project

- **Apex Development:** Created Apex classes, triggers, batch processes, and REST APIs to implement custom business logic and integrations.
- **Lightning Web Components (LWC):** Built reusable and dynamic LWCs integrated with standard/custom objects for interactive user interfaces.
- **Flows Automation:** Designed screen flows and automated business processes, integrating with Apex for complex logic when needed.
- **Platform Configuration:** Configured custom objects, fields, validation rules, page layouts, profiles, roles, and permission sets.

Salesforce Release Project

- **GitLab CI/CD Pipelines:** Automated Salesforce deployments using GitLab CI/CD pipelines and Salesforce CLI, focusing on delta changes for efficient deployment.
- **Copado Deployment Management:** Managed multi-environment deployments with Copado, including automated testing and conflict resolution.
- **Metadata Management:** Retrieved and deployed metadata such as Apex classes, LWC components, and configuration settings.
- **Deployment Automation:** Configured **.yaml** files for deployment

SKILLS

Technical -Apex, LWC, Flows, Configuration, Integration, APIs, Declarative Development, Data Management
DevOps -Git, CI/CD, Copado, Metadata Management
