### PROJECTS

#### Cloud Enterprise Service (CES) Project

📅 05/2022 - Present 📍 Atos Pune

Responsible for deploying, and managing cloud-based solutions using Microsoft Azure and OCI services.

- Lead the migration of on-premises infrastructure to the Microsoft Azure cloud for a client in the manufacturing industry.
- The objective of the project was to modernize the client's IT infrastructure, improve scalability, and reduce operational costs by leveraging cloud technologies.
- Worked on the Cyber Ark Platform, provided security to customer.
- Provided comprehensive technical support for a large-scale Azure project, managing and optimizing cloud infrastructure across Virtual Machines, Azure Kubernetes Service (AKS), Azure SQL Database, and Azure Active Directory.
- Played a key role in troubleshooting and resolving high-impact issues, maintaining 99.9% uptime by proactively identifying and addressing performance bottlenecks and system vulnerabilities.
- Built dashboards and alerting systems with Azure Monitor, Log Analytics, and Application Insights, ensuring real-time insights and improved visibility for project stakeholders.
- Contributed to documentation and knowledge sharing within the project team, accelerating onboarding for new members and enhancing support efficiency.

### SKILLS

Cloud Computing		Microsoft Azure IaaS		Azure Admin	
Azure VM	Azure Services		DevOps	OCI Platform	
OCI Services		Storage Management		Oracle RAC	RMAN
PSU/RU/OJVM	Linux	Networking		RBAC	ARM
Automation	Citrix	Scripting (PowerShell, Azure CLI, Bash)			
Azure Active Directory		Azure Security		System Monitoring	
Azure Firewall		Performance Optimization		CyberArk	
Team Leadership		Team Management		Group Management	
Patching	Collaboration		Artificial Intelligence		
Linux Troubleshooting		Root Cause Analysis			
Windows Troubleshooting		Customer Support			

### SUMMARY

Cloud Infrastructure Engineer with 2+ years of experience in providing technical support for cloud infrastructure and specialising in Azure and OCI environments. Skilled in troubleshooting complex issues, optimising system performance, and enhancing customer satisfaction. Strong background in scripting, automation, and root cause analysis with a proven record of reducing resolution times and increasing system reliability. Passionate about delivering proactive solutions and staying current with evolving cloud technologies.

### EXPERIENCE

#### Associate Consultant

Atos

📅 05/2022 - Present 📍 Atos Pune

Atos Business that brings together its digital, cloud, big data and security business lines.

- Provided end-to-end technical support for Azure cloud infrastructure. Azure Virtual Machines, Azure SQL, Azure Active Directory, OCI services and Azure Storage.
- Windows and Linux Patching.
- Azure Virtual Desktop.
- Data centre migrations, AD migrations, and infrastructure security across multiple clouds.
- Experience with Microsoft Entra ID Connect, Azure AD DS, and related technologies.
- Manage and administer the hybrid cloud environment, including, provisioning, configuration, performance monitoring, policy governance and security.
- Lead the design and implementation of hybrid cloud architectures using Azure.
- Disaster Recovery (DR).
- Ci/CD pipeline & DevOps practices - PowerShell execution.
- Azure Networking.
- Azure IAAS.
- Role Base Access Control (RBAC).
- Azure Resource Manager (ARM).
- Linux Admin skill troubleshooting, configuration.
- Hubs and spoke Network topology.
- Incident Management and Change Management.

### CERTIFICATION

Microsoft Certified- Azure Network Engineer Associate

Micosoft
