Pune, Maharashtra, India

### SUMMARY

I am a dedicated DevOps Engineer with 3 years of experience in optimizing CI/CD pipelines, managing cloud infrastructure, and automating deployments. I excel at quickly learning and implementing new technologies and thrive in fast-paced environments. My proactive approach and strong collaboration skills enable me to contribute effectively to team goals and drive successful project outcomes.

### SKILLS

Azure	AWS	Git	Databricks	Azure Devops	Bash	CI/CD	Cloud Infra	Docker	Iac	JIRA	Json
Linux	Postman	PowerApps	PowerBI	Powershell	Terraform	Ubuntu	Windows	Unity Catalog			
DevOps Tools	Python	Function App	Web App	Storage Account	Containerization	VM	Monitoring				

### EXPERIENCE

12/2021 - Present

Pune, India

#### DevOps Engineer

##### Accenture

- Proficient in Git as a version control system. Also used Azure DevOps for CI/CD implementation and maintaining Git repositories.
- Designed and implemented robust CI/CD pipelines for automating Power BI and Power Apps report deployments.
- Responsible for managing and maintaining selective deployment processes to ensure efficient and targeted code deployment on respective environments.
- Implemented Unity Catalog methodology in all Azure DataBricks workspace by using Terraform.
- Hands-on experience in configuring and managing Azure infrastructure components like Storage Account, Key Vault, Databricks, Data Factory, Logic App, Web App, Function App and more.
- Troubleshooting various infra related issues in services like DataBricks (unity catalog), Data Factory, ADLS, Virtual Machines, key vault etc.
- Troubleshoot production issues and coordinate with the development team to streamline code deployment.
- Developed and deployed az Azure Python Function to automate the conversion of csv to pgp files, ensuring secure and efficient data processing.
- Skilled in both Agile and Waterfall development methodologies.

### PROJECTS

#### Data Analytics Platform

12/2021 - Present Azure Cloud

Developing a data analytics platform with continuous integration and delivery.

- Played a key role in designing, implementing, and maintaining CI/CD pipelines to streamline and automate deployment processes.
- Leveraged expertise in Infrastructure-as-Code with Terraform to design, deploy, and manage a scalable architecture.
- Integrated Power BI and Power Apps with Azure DevOps to automate deployments.
- Focused on the development and maintenance of Infra and Continuous Integration/Continuous Deployment.

### EDUCATION

08/2017 - 08/2020

Kolhapur, India

#### Bachelor Of Engineering

##### Shivaji University

08/2014 - 08/2017

Pandharpur, India

#### Diploma In Engineering

##### MSBTE Board

### CERTIFICATION

Azure Administrator Associate (Az-104)

Azure DevOps Expert (Az-400)

Fundamentals (Az-900, AI-900, DP-900)
