## EXPERIENCE

**Uphill Technologies Pvt Ltd Nagpur, Salesforce Developer | January 2022 – December 2023**

**Project Title: Payday Loan CRM (Salesforce Enhancement for Third-Party Vendor Management)**

- ▶ In the United States, some third-party vendors help create and manage relationships with banks and customers. These third-party vendors help customers get loans approved and verified based on the customer's Risk Score, credit card and debit card and initial Bank values statements.
- ▶ Our work was to complete the project business requirements for third-party vendors. Monitor and implement changes in clients' Salesforce systems to improve their business processes.
- ▶ My job was as a salesforce developer, my senior developers used to assign me tasks.
- ▶ Areas of Expertise: -Worked on salesforce.com standard objects like Accounts, Contacts, Opportunities, Products, Cases, Leads, Campaigns, Reports, Dashboards and Custom Objects.
- ▶ Hands-on Experience Building Schema of salesforce Data Models using Object Manager, Object Relationships, Standard Fields, Custom Fields, Page Layouts, Search Layouts, and Record Types.
- ▶ Hands-on experience Working in salesforce Data Management by using features like Validation Rules and Formulas, Lookup Filters, Data Quality Improvement, Data Import Wizard, and Data Export service for Backup using Data Loader and Workbench.
- ▶ Good understanding of Configuration and setup in Salesforce Classic and Lightning interface by working on User Setup and Maintenance, Profiles and Permission Set, Security Model, Sharing Modules, Sharing Rules, User Interface, and Lightning App Builder
- ▶ Good understanding of the Salesforce process Automation landscape and experience in Automating Business Processes using Point and point-and-click tools/Features (Force.com) of Salesforce like Work Flows, Process Builder, and Flows.
- ▶ Hands-on development experience using force.com features like Apex Triggers, Apex classes, and Controller classes for various functional needs in the application.
- ▶ Used SOQL and SOSL for Data manipulation needs of the application using platform Database Objects.
- ▶ Worked on Lightning Web Components
- ▶ Lightning web component Life cycle Hooks constructor (), connected-Callback (), dis-Connected-Callback (), rendered-Callback (), error-Callback, render ().
- ▶ Experience in UI design and lightning pages using LWC.
- ▶ Proficiency in Decorators i.e., @Track, @API, @Wire Adapters.

### **Uphill Technologies Pvt Ltd Nagpur, Salesforce Intern | June 2021 - December 2021**

- ▶ Custom Application on Salesforce.com: Allows candidates to register, search for jobs, and upload their resumes. It also generates automatic reports about candidate reviews and hired positions.
- ▶ Create custom objects, site objects, and junction objects to make an existing app more efficient. Customize page layouts, create relationships, and add filters to give app users easy access to the information they need. Add custom fields to the app to capture information critical to the hiring process.
