Professional Summary

Results-driven Salesforce Developer with 3 years of hands-on experience in designing, developing, and implementing robust Salesforce solutions. Proficient in Apex, Lightning Web Components (LWC), Flows, and Process Builders, with a strong background in Sales Cloud and external system integrations. Adept at optimizing code for performance and scalability, automating complex business processes, and ensuring seamless deployments across various environments. Committed to delivering high-quality solutions that enhance user experiences and drive business efficiency. Salesforce Certified Platform Developer I and Salesforce Certified Administrator.

Experience

Software Engineer (Salesforce Developer)

HCL, Nagpur

November 2021 – August 2024

- Developed customized Lightning Web Components (LWC) to enhance user experiences.
- Optimized Apex Classes, Triggers, and Batches for improved performance.
- Managed Salesforce deployments across various environments.
- Designed Flows to automate complex business processes.
- Created and managed custom objects and fields for effective data organization and reporting.
- Automated intricate business processes using built-in Salesforce features.
- Configured detailed security and data access rules for users and roles.
- Ensured code optimization within Salesforce Governor limits.

- Developed Apex Triggers, Helper, and Handler Classes for specific data processing needs.
- Provided technical support and issue resolution to improve system reliability.

Projects

PenFed Credit Union

- Developed a comprehensive Salesforce solution for PenFed Credit Union's online division.
- Collaborated with stakeholders to understand requirements and engineered tailored Salesforce applications.
- Integrated Salesforce with external banking systems for real-time data exchange.
- Implemented automated flows, reducing processing time by 90%.
