## SUMMARY

Passionate Cloud Engineer with 2+ years of IT experience in deploying, managing, and optimizing Azure environments with a focus on security, compliance, performance monitoring, and cost control methods. Successfully ensured 100% compliance with security patching schedules for Windows servers. Proficient in troubleshooting and committed to continuous learning and adaptation to emerging cloud technologies.

## TECHNICAL SKILLS

- Microsoft Azure (IaaS, PaaS)
- Backup and Restoration
- Windows Patch Management
- Windows Virtual Desktop
- MSSQL Server & Database
- On-premises to Azure Migration
- Azure Active Directory
- Terraform (Azure)
- ServiceNow

## PROFESSIONAL EXPERIENCE

**LTIMindtree, Mumbai**

**Jun 2022 - Present**

*(Engineer - Cloud and Infrastructure Services)*

- Building and implementing secure, scalable, and highly available Azure infrastructure solutions.
- Creating and configuring resource groups, virtual machines, availability sets, and storage accounts.
- Configuring and managing Azure networking components such as virtual networks, subnets, network security groups, virtual network peering.
- Implementing and managing Azure Load Balancers, Application Gateways, and VPNs.
- Managing and optimizing Azure resources, including virtual machines and storage.
- Configuring Azure Monitor and Azure Log Analytics for resource and application monitoring.
- Setting up alerts, and responding promptly to incidents.
- Monitoring resource usage and implementing cost control measures.
- Implementing identity and access management solutions, including role-based access control (RBAC).
- Managing user accounts in Active Directory, including creation, updates, and deletions, and customizing password policies as needed.
- Planning and implementing Disaster Recovery on servers to ensure business continuity.
- Performing backup and restore operations to ensure data availability and protection.
- Patching Windows servers to keep them up to date with the latest updates and closing vulnerabilities to mitigate security risks.
- Identifying and resolving Azure infrastructure issues, leading incident response to minimize downtime and ensure quick recovery.

## CERTIFICATIONS

- Microsoft Certified: Azure Fundamentals (AZ-900)
- Microsoft Certified: Azure Administrator Associate (AZ-104)

## EDUCATION

**Bachelor of Computer Applications**

**Aug 2019 - May 2022**

- S.N. College of Science, Dholpur, Rajasthan

## ADDITIONAL INFORMATION

**Achievements:** Awarded Coach and Team Player Badges at LTIM.

**Activities:** Working on a Global Cloud Migration Project within the Migration Team.

**Languages:** English, Hindi, Telugu.
