## EXPERIENCE

### Associate Salesforce Developer

#### Duckman Technologies

May 2024 – Ongoing

Mumbai

- Developed and customized Salesforce Sales Cloud solutions using Apex, Visualforce, Lightning Web Components, and SOQL to improve automation and user experience.
- Delivered scalable, industry-specific solutions for multiple projects in the Real Estate and Marketing Analytics sectors.
- Integrated external systems via APIs and optimized business processes using Process Builder and Flows to enhance efficiency.
- Ensured seamless automation and user experience through custom Salesforce development and workflow enhancements.
- Worked in an Agile environment, participating in sprint planning, daily stand-ups, and progress tracking using JIRA and Confluence.

### Associate Salesforce Developer

#### Vision Techno Services Pvt Ltd

Nov 2022 – May 2024

Pune

- Customized UI with Page Layouts, Dynamic Forms, Validation Rules, and Lightning Experience enhancements. Configured Profiles and Permission Sets to control visibility, ensuring spend allocation remains restricted to management.
- Built Visualforce Pages for generating Proforma Invoices with and without discounts, streamlining the order process.
- Wrote and maintained Test Classes to ensure high code coverage and system reliability.
- Assisted in weekly deployments using VS Code and Change Sets, ensuring smooth production releases.

## PROJECT

### Sumadhura

- Developed and customized Salesforce solutions to streamline the budgeting process for Sales Marketing.
- Created Visualforce Pages and Lightning Web Components (LWC) for target plan creation, approvals, and budget allocations, ensuring a seamless workflow.
- Developed custom Apex Triggers and Asynchronous Apex for backend logic, and built Lightning Web Components (LWC) to enhance the user interface.

### Quiz Application Portal

- Developed a Quiz Application Portal where users can answer questions, and their responses are stored in the system.
- Implement a Lightning Web Component (LWC) page to generate dynamic forms with various question types (text, checkbox, radio button) and the ability to add sub-questions.

### Nopp India

- Developed LWC Components for Lead Forms using LDS and designed Visualforce Pages for Proforma Invoices (with and without discounts) to enhance order processing.
- Built custom Apex Classes for lead conversion from migration data and developed wrappers for Lead Form LWCs.
