

SUMMARY

As a passionate UI/UX Designer and Web Developer with extensive experience since 2022, I specialize in creating websites that not only captivate users but also drive business success. My expertise lies in building user-friendly, manageable websites that deliver exceptional user experiences. I am currently seeking exciting new job opportunities to bring my skills and creativity to innovative projects.

1. **Mubadala - UAE**
2. **Cooper Surgical - United States**

PROFESSIONAL EXPERIENCE

Mazik Global

2022 - Present

- **Healthcare Project Designs:** Led the design efforts for multiple healthcare projects, focusing on creating user-centric interfaces that enhance patient and provider interactions.
- **Wireframes and Prototypes:** Developed detailed wireframes and interactive prototypes to visualize and iterate on design concepts, ensuring alignment with project requirements and user needs.
- **Mockups:** Created high-fidelity mockups using Adobe XD, translating wireframes into visually appealing and functional designs.
- **Feature-Based Design:** Collaborated closely with stakeholders to understand feature requirements and incorporated them into the design process, ensuring that all features were user-friendly and intuitive.
- **User Research and Testing:** Conducted user research and usability testing to gather feedback and make data-driven design decisions, improving the overall user experience.
- **Cross-Functional Collaboration:** Worked alongside developers, product managers, and other team members to ensure seamless implementation of designs and maintain design consistency across projects.

We implemented several key features, including the ability to book appointments, donor portal, refill medications, find physicians, access and manage health records, view lab results, chat directly with care coordinators, track orders, and request detailed medical reports.
