

NANEBOINA ANIL

E-Mail: anil.itgce1202@gmail.com Mobile: +919908835908

To work with passion and perseverance in a company which offers good and a challenging opportunity where I can apply my knowledge and skills to achieve greater heights in my professional career.

SYNOPSIS

- Dedicated and hardworking professional having around 2 years of IT industry experience in the I have worked in all areas of IT administration and current network and infrastructure administrator position.
- Good at managing applications hosted in Azure and has experience working on Storage Accounts, Virtual Machines, Load Balancers, and Application Gateways.
- Experience in Compute, Networking and Storage on Microsoft Azure.
- Technical skills on Azure administrator and Microsoft Identity and Access Management
- Experience in migration and integration of on-premises Active Directory to Microsoft Entra ID (formerly Azure Active Directory).
- Office 365 Administration (Microsoft 365 Admin Center) and Able to work 24/7 and handle on-call over weekends.

PROFICIENCY MATRIX

- Operating Systems: Windows, Linux (Ubuntu)Domain
- Knowledge: Microsoft Azure Devops, Microsoft Identity and Access Management ,

Microsoft Certifications:

- AZ-104 Microsoft Azure Administrator (7C8DAA7ADC5E4F2F)
- SC-300 Microsoft Identity and Access Management (CDB956C24E1537B0)

CAREER SUMMARY

1) Project Profile: Powered-state

Company Name: Globel tek pro solutions, Bangalore

Microsoft Azure Administration :

- Experience in infrastructure deployment for many Applications in Azure as per Industry standards.
- Configuration and Management of services in Azure platform.
- Providing Support to Various Services on Azure Post Implementation.
- Experience in implementation and maintenance of Infrastructure (Storage, Virtual Machines, Web Apps)

- Skilled in implementing Network Security Groups (NSGs)
- Experience in Load Balancer (Application Gateway, Internal Load Balancer (ILB) & public Load balancer, Traffic manager)
- Experience in Azure resource creation using portal, PowerShell and ARM templates, Bicep ,
- Established network connectivity and security policies to ensure secure communication and data transfer between onpremises and Azure resources, leveraging Azure Network Security Groups (NSGs) and Azure Firewall.
- Proficient in configuring and managing Azure VPN Gateways, ensuring seamless connectivity in hybrid cloud environments.
- Designed and implemented Azure Backup and MARS solutions for hybrid and cloud-only environments, including virtual machines, databases, file shares, and on-premises servers.
- Administration and Implementation of Azure Backup Vault for VM Backups and Data Backups.
- Engaging in remote access sessions to troubleshoot a wide array of issues encountered on Virtual Machines.
- Managing day-to-day activity of the cloud environment, supporting development & Application teams with their requirements.
- Participates in cross-functional training and fulfills team backup responsibilities as assigned.
- Creating and presenting Weekly status reports.

1) Project Profile: Identity Nexus

Company Name: Globel tek pro solutions, Bangalore

Microsoft Azure Active Directory-Entra ID :

- Implemented Microsoft Entra ID (Azure AD) Authentication for Windows and Linux Virtual Machines
- Configured Azure File Sync to synchronize on-premises file servers with Azure File Shares, enabling centralized file storage and access while maintaining data locality and performance.
- Configured and enforced Conditional Access policies to control access based on user, device, location, and risk level, enhancing security posture and compliance.
- Designed and implemented Microsoft Entra ID (Azure AD) identity and access management solutions, including single sign-on (SSO), multi-factor authentication (MFA), and conditional access policies.
- Configured Azure AD Connect as a part of migration for directory synchronization between on-premises Active Directory and Azure AD, ensuring consistent user identities and access control across environments.
- Managed Azure AD roles and permissions, including Global Administrators, User Administrators, and Application Administrators, to enforce least privilege access and segregation of duties.
- Enhanced security measures within Azure Active Directory by implementing identity governance and protection features, including risk-based conditional access, identity risk policies, and advanced password protection protocols, to proactively mitigate potential security risks and threats.
- Utilized Microsoft Defender for cloud and on-premises environments to enhance security posture and protect against emerging threats.
- Provisioned and assigned licenses using the Microsoft 365 Admin Center, ensuring users have appropriate access to Microsoft 365 services and applications based on their roles and responsibilities.
- Implemented hybrid identity solutions to enable seamless access to Azure resources using existing on-premises credentials, ensuring a consistent user experience across cloud and on-premises environments.
- Enhancing the configuration of hybrid Azure Active Directory to facilitate seamless device joining and registration, while also monitoring its health status through Azure AD Connect Health.

Project profile2: Access 360

Company Name: Globel tek pro solutions, Bangalore

Microsoft Azure Active Directory-Entra ID:

- Create an Azure account and add Azure Active Directory Premium P2 trial licenses Manage user roles , Working with tenant properties.Assigning licenses using group membership ,Configure external collaboration settings.
- Add guest users to the directory and Add a federated identity provider. Add Hybrid Identity with Microsoft Entra Connect, Enable multi-factor authentication and Configure and deploy self-service password reset ,Microsoft Entra Authentication for Windows and Linux Virtual Machines.
- Assign Azure resource roles in Privileged Identity Management, Manage Microsoft Entra smart lockout values.
- Implement and test a conditional access policy, Enable sign in and user risk policies ,
- Configure an Multifactor authentication registration policy, Using Azure Key Vault for Managed Identities,_Defender for Cloud Apps application discovery and enforcing restrictions. Defender for Cloud Apps Access Policies,_Register an application,_Implement access management for apps, Grant tenant-wide admin consent to an application.
- Create and manage a catalog of resources in Microsoft Entra entitlement management, Add terms of use and acceptance reporting, Manage the lifecycle of external users in Microsoft Entra Identity Governance settings,_Creating Access Reviews for Internal and External Users,
- Configure Privileged Identity Management for Microsoft Entra roles, Microsoft Sentinel Kusto Queries for Microsoft Entra data sources Monitor and managed security posture with Identity Secure Score.

Azure DevOps :

- **CI/CD Pipelines:** Proficient in designing and automating CI/CD pipelines using Azure Pipelines, including integration with Git for version control and automating build, test, and deployment processes across multiple environments.
- **Version Control (Git):** Experience managing repositories, creating branching and merging strategies using Azure Repos, and maintaining code quality through pull requests and code reviews.
- **Infrastructure as Code (IaC):** Skilled in using ARM templates, and Bicep for automating infrastructure deployment, ensuring consistent environments and reducing manual intervention.
- **Azure DevOps Services:** Hands-on experience with Azure Boards for agile project management, Azure Artifacts for package management, and Azure Test Plans for testing and validation.
- **Security & Compliance:** Implemented Azure DevOps security best practices including Role-Based Access Control (RBAC), secure secrets management with Azure Key Vault, and enforced Azure policies for compliance.
- **Monitoring & Logging:** Integrated Azure Monitor and Application Insights to track performance metrics and logs for applications, facilitating proactive monitoring and troubleshooting

EDUCATION & CREDENTIALS

- B.Tech in Information Technology and Engineering from Ganapathy College of Engg & tech, affiliated to JNTU-Hyd
- Intermediate (MPC) from sr junior College passed out Warangal.
- SSC Board from Vignana Bharathi Vidyalayam passed out Warangal.

PERSONAL DETAILS

- Linguistic Skills : English, Hindi, Telugu
- Permanent Address : 4-71, damera village , Warangal 506006
- Location Preference : Hyderabad Telangana
