### CLOUDS

- CPQ
- Sales Cloud
- Service Cloud
- CRM Analytics
- Experience Cloud

### EXPERIENCE

As a dedicated and results-oriented Salesforce Developer, I bring one years of hands-on experience in developing and customizing Salesforce solutions to drive business success. Incorporating **Lightning Web Components** (LWC) into our projects has greatly enhanced our user interface, providing an interactive and seamless platform for documenting work experience with efficiency and precision. Leveraged Salesforce **Integration(REST)** to streamline work experience tracking, ensuring real-time data synchronization and enhancing productivity. Utilized **Salesforce CRM Analytics** to gain deep insights, optimizing work experience strategies and driving data-driven decision-making for impactful outcomes. Use **Data Loader** and **workbench** for the data migration. Utilized Salesforce **Big Objects** to handle vast volumes of work experience data, ensuring seamless scalability and robust performance for comprehensive record management. Enabling **Salesforce Code Analyzer** to enhance code quality in work experience projects, ensuring adherence to best practices and optimizing performance for robust solutions. Proficient in utilizing **CPQ Cloud** for streamlined configuration, pricing, and quoting processes.

### EDUCATION

Bachelor's of Engineering  
and technology  
(Computer Science)

## PROJECTS

### PROJECT : MOBILE MEDICARE APPLICATION

**INDUSTRY :** HEALTH CARE

**Team Size :** 8

The Salesforce-based Mobile Medicare Application revolutionizes healthcare by prioritizing mobile accessibility, elevating efficiency, ensuring compliance, and optimizing resource allocation for medical equipment management. This transformation utilizes Sales Cloud, Service Cloud, and Experience Cloud to empower healthcare providers.

**Role & Responsibilities :**

Understanding the requirements and implemented customized UI using Lightning web components and analyzing the data using CRM Analytics, build custom functionalities using apex triggers.

**Skills :**

**Apex triggers, CPQ Cloud**, SOQL, Lightning Events, LWC Components, LWC Wire services, **LWC PubSub Module**, Big Objects, CRM Analytics, Validation Rules, Approval Process, Apex Batch, **Copado**

---

### PROJECT : ChatGPT Integration

**INDUSTRY :** APP EXCHANGE

**Team Size :** 2

Drove a Salesforce project integrating ChatGPT, revolutionizing client interactions with dynamic AI-driven chatbot solutions. Spearheaded the seamless fusion of Salesforce capabilities using LWC and integration, ChatGPT technology, ensuring personalized, efficient, and intuitive customer experiences.

**Role & Responsibilities :**

Understanding the requirements and implemented the customized UI for using the product and integrating ChatGPT using integration and analyzing the code using Salesforce code analyzer.

**Skills :**

Lightning Web Component (LWC), Integration for Http callouts and **Salesforce Code Analyzer**, Apex Class,

Apex Test Class, **Salesforce CLI**, Future Methods, **Partner Portal**, **Postman**

---

### PROJECT : Event Management Application

**INDUSTRY :** HOSPITALITY

**Team Size :** 4

Led the successful implementation of a comprehensive Event Management System on the Salesforce platform, streamlining event planning, registration, and attendee management.

**Role & Responsibilities :**

Responsible for designing and implementing custom Salesforce solutions to enhance event management processes and user experiences through web components and implementing flows & triggers.

**Skills :**

Flow, Triggers, Workflow rules, **Approval Process**, Role, Profile , User settings, Sharing settings , email alerts, **CRM Analytics**, **validation rules**, record types, page layouts.
