Plot no. 67 Jagpal Kheda, Bharwara Crossing, Chinhat, Lucknow - 226028

Education

Babu Banarasi Das Engineering College, Lucknow 2018 - 2022
B.Tech in Computer Science & Engineering — CGPA: 7.64

Summary

Security Analyst specializing in Identity and Access Management (IAM). Skilled in Microsoft Entra ID (Azure AD), Single Sign-On (SSO), Multi-Factor Authentication (MFA), Conditional Access Policies, and access control security frameworks. Strong expertise in mitigating security risks and ensuring compliance.

Professional Experience

Senior Analyst Oct 2024 - Present
HCLTech, Noida

- Manage and enhance IAM frameworks, implement SSO, MFA, and Conditional Access policies.
- Administer Microsoft Entra ID, enforce RBAC, and monitor identity-based threats.
- Configure and troubleshoot SAML, OAuth, and OpenID Connect authentication protocols.
- Collaborate with teams for secure application onboarding and threat mitigation.

Analyst Nov 2023 - Sep 2024
HCLTech, Noida

- Hands-on experience with CyberArk for user password resets and credential management.
- Onboard applications into Microsoft Entra ID, configure SAML, OpenID Connect.
- Ensure security compliance and seamless authentication processes.

Graduate Engineering Trainee Aug 2022 - Oct 2023
HCLTech, Noida

- Assisted in IT infrastructure troubleshooting and user access security best practices.
- Worked with ServiceNow ticketing tool and BMC Helix for incident management.

Certifications

- Microsoft Certified: Security, Compliance & Identity Fundamentals
- ITIL 4 Foundation
- CCC (NIELIT)

Skills

Technologies: Microsoft Entra ID (Azure AD), CyberArk, ServiceNow, PowerShell, Python, SQL
Security: SSO, MFA, Conditional Access, IAM, Role-Based Access Control (RBAC)

Achievements

Received client appreciation for outstanding IAM service contributions, strengthening security posture via MFA, SSO, and Conditional Access implementation.

Key Highlights

- **SSO Integration:** Implementing SAML, OAuth, and OpenID Connect for authentication, configuring Single Sign-On (SSO) for applications, integrating applications with Identity Providers (IdPs) like Azure AD, and troubleshooting SSO login issues.
- **Application Onboarding:** Onboarding applications into Azure Active Directory (Azure AD), configuring Enterprise Applications and managing service principals, setting up OAuth and OpenID Connect flows for app authentication, and managing application permissions and consent policies.
- **Multi-Factor Authentication (MFA) Management:** Enabling, removing, or re-registering MFA for users, configuring MFA policies in Azure AD or SecurEnvoy, managing conditional access policies for MFA enforcement, and troubleshooting MFA issues.
