PROFILE

I am currently working as an Azure Cloud Engineer at DXC Technology, where I have been a valuable member of the Azure Offering Delivery Team for the past 3+ years. During this time, I have worked as an Azure Engineer/Administrator for multiple accounts such as Varian and McKesson, successfully onboarding these customers to Azure. My expertise lies in Azure, DevOps, Cloud Automation (IaC), and Windows Server administration. I have utilized these skills to implement a range of automation solutions for the accounts that I have managed. In addition to my technical abilities, I have honed my customer engagement skills, enabling me to effectively understand the scope of work required and deliver all assigned tasks within the specified timeline.

WORK EXPERIENCE

Azure Cloud Engineer | DXC Technology

[2021 June - Present]

- Managed multiple accounts including Varian, and McKesson overseeing their Azure onboarding processes and ensuring successful migration and implementation.
 - Implemented automation solutions using Azure DevOps, PowerShell scripting, and Terraform to streamline operations and improve efficiency.
