WORK EXPEIRIENCE

- > REI SYSTEM PVT LTD
- As a Software Engineer from May 2022 to Present.
- > SEA SCAPE SOFTWARE'S
- As Intern from Aug 2021 to March 2022

PROJECT SUMMARY: -

Product Overview:

GovGrants is a cloud-based, end-to-end grant management solution designed for government agencies and nonprofits organization. It automates application review, award distribution, and monitoring, integrates with financial systems, and enhances transparency and compliance. This system supports data-driven decisions with comprehensive dashboards and reporting tools, making it easier to manage grants, cooperative agreements, and contracts.

Project 1: Gwinnett County (Gc) Grant Management System

Environment: Salesforce Classic, Apex Data Loader, Triggers, Visualforce, HTML, JavaScript

Team Size: 8

Roles & Responsibilities:

- Developed custom objects, fields, page layouts, and record types to meet complex requirements.
- Integrated with SPA System using REST API for financial data management.
- Set up agreement document generation using Conga Composer.
- Used Data Loader and Workbench for bulk data operations.

Project 2: Office Of Victim Services And Justice Grants (Ovsjg)

Environment: Salesforce Lightning, LWC, Apex, Triggers

Team Size: 8-12

Roles & Responsibilities:

- Created Lightning components to enable easy research paper management for reviewers.
- Analysed and implemented technical requirements, including custom objects and schedulable Batch Apex.
- Developed Apex classes, controllers, and triggers to support application functionality.

Project 3: Alaska DCRA

Team Size: 10-14

Roles & Responsibilities:

- Developed custom objects, fields, triggers, and validation logic.
- Built LWC components for file upload/download and Excel integration.
- Integrated cloud-based document management with Excel for streamlined data handling.
