SUMMARY

I am a highly skilled Salesforce Developer with over 1.6 years of hands-on experience in Apex programming, Lightning Web Components (LWC), and Salesforce integrations. I specialize in building scalable, custom Salesforce applications that meet business needs, as well as integrating Salesforce with third-party automation tools to optimize workflows and enhance user experiences. Passionate about continuous learning, I stay current with Salesforce best practices and the latest developments in the platform.

TECHNICAL SKILLS

Languages	:	JavaScript, HTML, CSS, Apex, Latex, Python
Frameworks	:	LWC, Aura, ReactJS
Dev Tools	:	Visual Studio Code, Git
Salesforce	:	Salesforce Health Cloud, Salesforce Data Cloud

EXPERIENCE & INTERNSHIPS

Analyst Salesforce   Mar 2023 – Jun 2024
CubeSimple Private Limited   *FullTime – Chennai, Tamil Nadu, India*

- Leading a team in the development of a HIPAA HL7 compliant medical system - **KanceRx**, integrating multiple third-party systems with Salesforce as the primary platform. Responsibilities include project planning, architecture design, implementation, and quality assurance.
- Specializing in Lightning Web Components (LWC) to create user-friendly and efficient Salesforce applications, enhancing the company's capabilities on the Salesforce platform.
- Integrating Salesforce with various third-party automation tools to streamline business processes and improve system interoperability. Management, Change Management, and Service Catalog, to align with client requirements.
- Staying updated with the latest Salesforce features, functionality, and best practices, and proactively seeking opportunities to expand knowledge and skills through training, certifications, and professional development.

PROJECTS

Project 1 : Freelance Project – Uber-like Platform - Ongoing

- Developing a ride-hailing platform with a focus on backend architecture to ensure scalability and performance.
- Implementing features such as user management, real-time tracking, and secure payment integration.
- Working on integrating the backend with Salesforce to manage user data and automate key workflows.
- Ensuring seamless integration with third-party services, such as payment gateways, to enhance platform functionality.

Project 2 : KanceRx Integrative Medicine Practice System

- Salesforce Health Cloud Integration: Integrated KanceRx with Salesforce Health Cloud to centralize patient data, providing a comprehensive healthcare management solution.
- Developed custom Salesforce applications to automate patient management processes and improve user experience.
- Worked on data synchronization between Salesforce and mobile apps for real-time health monitoring.
- Integrated with third-party healthcare systems using Salesforce APIs, optimizing data exchange and patient care coordination.

EDUCATION

Chennai Institute of Technology   Chennai, Tamil Nadu, India
