Expertise

- Azure Services Management
- Backup and recovery
- Permissions & Security
- Security & Compliance
- Remote Server Management
- Task Automation
- DevOps (Basic)
- Azure Functions
- Azure SQL Database
- Server Deployment

Skills

- Planning & Organising
- Communication
- Decision-making
- Problem Solving
- Analytical thinking
- Result-oriented
- Infra handling
- Troubleshooting

Certificate

. **Azure Fundamentals**

DOLLY GOYAL
Cloud Engineer

About Me

Azure Administrator with 2 years of experience managing cloud infrastructure and services on Microsoft Azure, certified with Azure Fundamentals (AZ-900). Proficient in configuring and maintaining Azure Virtual Machines, Storage Accounts, Networking (VNets, NSGs), and Identity Management using Azure Active Directory. Skilled in deploying and monitoring resources, implementing backup and disaster recovery with Azure Site Recovery, and optimizing cost management. Familiar with basic Linux administration, including user management and file permissions. Strong focus on security, compliance, and automation using ARM templates, Azure CLI, and PowerShell. Seeking to contribute to efficient, scalable, and secure cloud operations.

Work Experience

MOBILISE APP LAB Pvt. Ltd | Server Administrator
Nov 2022 – Present

- Managed and maintained Redhat Enterprise Linux 6 and 7 servers, ensuring reliable performance and security.
- Conducted remote server management via SSH, providing timely support for user account issues, password resets, and troubleshooting system performance.
- Automated routine tasks with CRONTAB, optimizing system backups to Azure Blob Storage, and facilitated database migrations using MySQL Workbench with minimal downtime.
- Contributed to cost savings by identifying and removing orphan resources, streamlining server operations.
- Deployed virtual machines and database servers, enhancing scalability and resource allocation.
- Basic CI/CD knowledge, supporting development teams by implementing automated build and deployment pipelines in Azure DevOps, contributing to faster release cycles and enhanced application performance.
- Utilized WHM cPanel for effective hosting control panel management, ensuring smooth website operations.

T3MINT Pvt. Ltd | Linux Administrator
April 2020 – Sep 2022

- Assisted in managing Linux servers, including basic system monitoring, troubleshooting, and maintenance to ensure smooth operations.
- Configured user accounts and permissions, supporting user management by setting up groups, modifying file permissions, and ensuring secure access controls.
- Performed routine server tasks, such as software installations, updates, and patch management using package managers like yum and apt.
- Executed remote server management tasks via SSH, assisting with basic troubleshooting, file transfers, and log analysis.
- Proficiently navigated WHM cPanel to manage server components and streamline hosting operations.
- Assisted in automating tasks using simple bash scripts and scheduling cron jobs to optimize system maintenance processes.
- Collaborated with senior administrators in deploying and configuring web servers like Apache and Nginx, contributing to web hosting and application deployment.

Educational History

B.Com from DR. BHIMRAO AMBEDKAR UNIVERSITY, AGRA
2017 - 2020

XIIth from SVM Sr. Sec SChool, Mathura
2017
