Cloud Leaders – Bareilly, UP   JULY 2022 - Present
Salesforce Developer
Worked as a Salesforce Developer at Cloud Leaders for the below projects.

PROJECT HIGHLIGHTS:

Project 1 : 24hoursDeals.com
Role : Salesforce Developer

Description: 24hoursDeal.com is a company which deals with major E-commerce companies like Amazon, Flipkart etc. This company maintains the product of all major E-commerce company products according to Configurations, Quantity, Pricing.

Roles and Responsibilities:
• Developed triggers which will create/modify/delete various object records.
• Worked in Workflow rules, Dynamic SOQL query, Validation rules and Process Builders, Formula fields.
• Developed test methods for all the Apex Triggers & classes and maintained 90% coverage.
Environment: Visualforce, Apex Classes, Triggers, HTML, CSS, Apex Data Loader.

Project 2 : CreateManualOrder (LWC)
Role : Salesforce Developer

Description: Developed a custom Lightning Web Component (LWC) named "createManualOrder" for a Salesforce application to streamline order creation processes.

Roles and Responsibilities:
• Requirement Analysis: Collaborated with stakeholders to gather and analyse requirements for the manual order creation feature.
• Component Design: Designed the LWC with a user-friendly interface ensuring seamless user experience and efficient workflow.
• Implementation: Coded the LWC using JavaScript, HTML, and CSS within the Salesforce platform.
• Integration: Integrated the component with Salesforce backend using Apex controllers to fetch and manipulate data.
• Testing: Conducted unit and integration testing to ensure the component functioned correctly and met business requirements.
• Documentation: Created detailed documentation for future maintenance and updates.

Project 3 : Salesfroce Task Automation Project (Flow)
Role : Salesforce Developer

- Automated task creation and assignment for Leads and Opportunities, ensuring timely follow-ups.
- Implemented email notifications for task owners, boosting task completion rates.
- Streamlined Lead qualification processes through automated status updates.
- Collaborated with stakeholders to align flows with business needs, optimizing Salesforce utilization.
