CERTIFIED
Platform
Developer I

👤 Career Objective

"I am an accomplished Salesforce Developer with over all **4.5** years of Working experience, including **2.5** years of expertise in **Salesforce.com** and **Force.com**. I have a strong track record of maintaining client satisfaction, working independently,multitasking effectively, and collaborating as a team player.

🧩 Profile Summary:

- **Over 2.5 years of experience in IT industry including Salesforce.Com CRMplatform.**
- Strong exposure to **Lightning Web Components** (LWC) programming solutions and experienced in enhancing applications from the classic Salesforce platform to Lightning.
- Developed various Apex classes, Controller classes and Apex Triggers for various functional needs in the application of **LWC with best practices**.
- Implemented **Lightning Web Tabs** to improve user navigation and efficiency. Proficient in Salesforce Lightning UI, **Lightning Design System** (SLDS), and creating **Lightning Apps** using Lightning App Builder.
- Worked extensively on migrating **Visualforce pages** to **Lightning components** using both **Standard** and **Custom Controllers.**
- Optimized code to comply with Salesforce **Governor limits** ensuring efficient performance.
- Created **High-Level** and **Low-Level Design** (HLD/LLD) documents, detailing system architecture, data flow, and design specifications for clear stakeholder communication.
- Strong knowledge of SFDC standard data structures, with expertise in designing **Custom objects**, **Custom settings**, and **Custom Metadata types**, along with experience in understanding business requirements to create the necessary entities, **Relationships** and junction objects on the **Force.com** platform
- Knowledge of Asynchronous Apex such as **Batch Apex, Queueable Apex, Schedule Apex** and **Future method**.
- Experienced in using **Data Loader** and **Data Import wizard** for bulk data import/export and customizing **Reports** and **Dashboards** for real-time data analysis.
- Experience in using declarative features like **validation rules, workflows, approval process, dynamic approval process, sharing rules** automation for satisfying complex business process automations.
- Implemented **Security** and **Sharing rules** at the object, field, and record levels, and configured **Profiles** and
- **Permissions** based on organizational hierarchy.
- Expertise in **Experience Cloud** for customer engagement and deep understanding of **Service Cloud**, including Service Console, Case Management, Entitlement Management, Omni-Channel Routing, Live Agent, and Macros.
- Familiar with deployment tools like **Copado CI Jobs, Git, and GitHub**.

🧩 Technical Skills

- **Salesforce:** Apex Classes,Triggers, Test Classes, SOQL, SOSL, Visual Force, Custom Objects, Validation Rules, Work Flows, Dashboards, Reports, Asynchronous Apex, Lightning web Components, Sandbox development and Testing.
- **Cloud Computing:** Salesforce.com, Sales Cloud, Service Cloud.
- **Databases:** MS SQL Server, My SQL Workbench.
- **Tools:** Workbench, Data Loader, and Data Import Wizard.
- **Ticketing Tools**: Jira.
- **Deployment:** Experienced with Git & GitHub..
