State University   **Aug. 2018– May 2022**

ITM Group of Institutions, Gwalior, M.P.
8.8 CGPA

Skills and Expertise

- Apex
- SOQL & SOSL
- Salesforce customization and configuration
- CI/CD pipeline
- API Integration
- Flows and validations
- Copado
- Git & Git Lab
- DevOps
- LWC and Aura
- Data Management

Experience

Cognizant Technology Solutions   **June 2022 – Present**

Salesforce Developer and Release Manager

- Develop and customize Salesforce solutions using Apex, LWC, Visual-force, and SOQL to enhance business processes.

- Implement Copado CI/CD for automated deployments, version control, and release management. Managed Copado deployment pipelines, ensuring efficient and error-free releases.

- Design and configure Flows, Process Builder, Validation Rules, and automation solutions to improve efficiency.

- Manage user roles, profiles, permission sets, and security settings to enforce best practices. Created and maintained SOQL queries, reports, and dashboards for business insights.

- Work with Salesforce CLI, Git, and GitLab for source control and seamless deployment.

- Integrate Salesforce with external systems using REST/SOAP APIs, JWT authentication, and OAuth flows.

- Optimize performance with batch processing, asynchronous Apex, and governor limit best practices. Conducted unit testing, debugging, and performance optimization for Salesforce applications.
