Experience

CRMIT Solutions   *2022-Present*

● **Implementing CPQ application in Sales Cloud**
- The requirement was to customize and automate the process from Quote to Billing in sales cloud following CPQ rules.
- Build Lightning Web Component to create quote lines for Quote ,added validations to control and filter product same as CPQ.
- Automate assigning pricebook to quote based on currency selected in Opportunity.
- Got experience to interact with clients, analyzing the requirement, and providing solutions from the developer as well as bussiness point of view

● **Integrating CRM, JDE, and External services using Mulesoft**
- Led the creation of system APIs, process APIs, and experience APIs on a MuleSoft project.
- Used DataWeave and RAML to develop robust API templates.
- Orchestrated the integration between JDE and an external lead source, funneling data into the CRM system seamlessly.
- Demonstrated proficiency in MuleSoft integration and delivering impactful solutions in complex environments.
